The Great Outdoors meets the Information Super Highway

High Speed Internet Access 144 kbps

Inmarsat's new **Regional BGAN** provides data-only **satellite internet access** up to 144 kbps in **much of Africa, the Middle East, Europe, Central Asia and the Indian Subcontinent**. Additional coverage will be provided in **South and Central America** by mid-April 2006.

Regional BGAN combines the convenience of an **always-on internet connection** with the economy of paying only for the Megabytes of transfer that you actually use. The tiny 4.1 lb **notebook-sized** terminal is ideal when you are on the move and can be carried in a computer case (see right) with your notebook computer. Outfitter offers a 3.5 lb external battery pack for users needing power for their computer and the RBGAN terminal (see below). Both the RBGAN and external battery pack include international AC chargers (120-240 VAC, 50/60 Hz).

Static IP numbers are available as an option, and the data service is compatible with the General Packet Radio System (GPRS) standard. **Windows & Macintosh** (OS 10 or higher) are supported using USB, Ethernet, or Bluetooth.

HNS-9101 Terminal Specifications:

- Li-Ion Battery: 1 Hr continuous transmit (**36 hrs of standby operation** at standard temperature)
- Weight: transceiver 4.1 lbs (1.6 kg); total Standard Kit weight 7 lb; total Deluxe kit weight 12 lb.
- Dimensions: 11.8" x 9.5" x 1.5" (30cm x 24cm x 4cm)
- Operating Temp: 14°F to 131°F (-10°C to +55°C)

SATTRANS External Antenna Kit: An external satellite antenna is needed to work with the HNS-9101 while inside buildings, offices, or shelters. SATTRANS is proud to offer a Satellite Antenna Kit which allows mobile users to conveniently use their satellite equipment indoors. The kit provides all necessary components for HNS-9101 modems to operate beyond the direct view of satellites. The small weight and size of the antenna kit makes traveling with it easy.

FEATURES

- 4 dB satellite antenna gain
- right polarization
- 12 channel GPS receiver
- R-BGAN & Thuraya DSL comp.
- Easy to install and use
- Compact design
- Various cable options
- High quality & CE-compliant
- Two year warranty

PACKAGE CONTENTS:

- Satellite Antenna
- GPS Antenna
- Antenna Holder
- 8 m cable (LMR240)
- 3 m cable (RG58)
- 8 m RG58 cable

Need More Power for computers, camcorders, or just to recharge your satellite phone?
