

Terms on Unlimited PTT Plan

OPTIONAL SERVICES:		Telephony Mode Call Types	Rate
[] Mailed Bill Fee (Domestic US addresses only) \$1 per month per invoice		Voice and Data calls to PSTN numbers	\$1.19 per minute
		Incoming calls (direct dialed to the Iridium mobile)	FREE
[] North American Telephony Option \$13.95 per month (per active SIM card)		Incoming calls (received using +1 Access or 2-Stage)	\$ 1.69 per minute
		Iridium-to-Iridium voice calls or voicemail	\$ 0.69 per minute
[] Global Telephony Option \$24.95 per month (per active SIM card)		SMS messages (sent outbound, 160 character)	\$ 0.40 each
		SMS messages (received)	FREE
[] +1 Access (optional US phone number) \$10 per month (per active SIM card)		Voice calls to other mobile satellite networks	\$ 9.99 per minute
		PSTN means public switched telephone number. MSS is mobile satellite network. SMS means short messaging service. Other types of telephony-mode calls not listed above are billed at different rates.	

Payment Method: Credit approval is based on a valid U.S. credit card, substantial deposit, approved company purchase order, or a Dunn & Bradstreet credit report. By default, the Customer's credit card will be billed automatically each month for the charges described in this agreement. If Customer does not provide the U.S. credit card for the automatic monthly billing, an additional \$2 per month per phone charge will apply, and the Customer agrees to pay within 30 days of the statement date for service continuation. Payment must be made by check drawn on a US bank, money order, wire transfer, or a U.S. credit card.

Minimum Required Devices and Other Details: A minimum of 5 Iridium PTT phones must remain active, and Outfitter Satellite reserves the right to deactivate service to all Iridium PTT devices on this plan if this requirement is not met. An unlimited number of Push-to-Talk (PTT) communications is allowed amongst Iridium PTT phones within the same Talk Group (TG). Each Iridium PTT phone can have a maximum of 15 Talk Groups assigned to it. The operator of the Iridium PTT phone selects which Talk Group is in use. The Talk Group service plan(s) is executed separately.

Telephony Services: Telephony-Mode communications require a SIM card (available at no charge) and include services such as SMS messaging and making voice or data calls to PSTN/MSS numbers. Some phone models such as the ICOM IC-SAT100 do not support telephony. The Iridium Extreme PTT phone can operate in PTT Mode or Telephony Mode but not both simultaneously, and the S.O.S. feature of the Iridium Extreme PTT is only available while the Iridium Extreme PTT is in Telephony Mode. The Customer agrees to pay for all voice and data calls and SMS messages at the rates shown in this service agreement. Calls are measured and charged in one (1) minute increments. Undeliverable SMS messages from errors unrelated to the Iridium network such as problems with mail filters, mailbox overflows, or incorrect addresses remain billable. Long-format SMS messages up to 1000 characters are billed as a series of separate SMS messages of 160-character maximum length. Inbound phone calls received as a result of 2-Stage Dialing or +1 Access are billed as shown in the rate chart. Inbound calls received as a result of direct dialed calls to the 12-digit Iridium mobile number are not charged to the SIM card but the calling party pays their own international long-distance carrier. RUDICS and voice mail are included with plan. **Limitations:** If the SIM card provided for telephony services is used in a device other than an Iridium PTT phone, Iridium reserves the right to immediately and without notice deactivate the SIM card.

- **If Global Telephony Option is selected,** telephony services will be available globally with the exception of the Middle East Region (see attached figure).

- **If North American Telephony Option is selected,** telephony services will be restricted to a region which includes Canada, Mexico and the United States, including all 50 states and the U.S. Territories of Puerto Rico and the U.S. Virgin Islands and certain surrounding waters (see attached figure). Coverage may exist (but is not guaranteed) up to 12 nautical miles beyond the boundaries of the North America Region.

Use in the Middle East Region is prohibited on this plan. Iridium monitors for Telephony-Mode and PTT-Mode usage originating in the Middle East Region and reserves the right to immediately and without notice, deactivate SIM card(s) and Iridium PTT phones found to have usage wholly or partially within the Middle East Region.

Initial Term & Plan Change Requests: This Service Agreement has an Initial Term of 12 months as measured from the activation date of the Iridium PTT phone. There is a charge of \$440 for cancellation of service to an Iridium PTT phone at any time prior to the end of its Initial Term. After the Initial Term is completed the Service Agreement has automatic one (1) month renewal terms for each subsequent month and the customer can cancel without penalty at any time. Plan Change requests are not allowed during the Initial Term, but after the Initial Term is completed, a plan change request is effective on the first day of the subsequent month (the "effective date"). **Cancellation:** To cancel service, CUSTOMER must provide Outfitter Satellite with an express written, signed intent to cancel the subscription. The CUSTOMER remains responsible for usage until 3 business days after the CUSTOMER's requested service cancellation date, and if this date is after the 25th of a month, the CUSTOMER is liable for any service fees to be billed in the subsequent month. Upon cancellation, there is no refund or proration for any service fees. Cancellation notices must be sent to info@OutfitterSatellite.com or faxed to 615-902-0028 or mailed to 2727 Old Elm Hill Pike, Nashville, TN 37214 USA.

APPENDIX A: Middle East Exclusion Zone

Use of the Small or Medium Talk Group described in this agreement within the Middle East Region Prohibited:

The Talk Group can be configured to cover any area globally with the exception of the Middle East Region (see attached figure). Iridium reserves the right to immediately, and without notice, deactivate any Talk Group(s) found to be wholly or partially within the Middle East Region and further reserves the right to immediately, and without notice, deactivate any Iridium PTT phone(s) found to have at least one Talk Group wholly or partially within the Middle East Region.

Special pricing plans are available for users operating in the Middle East region.

Figure A: Middle East Region

The Middle East Region includes Afghanistan, Azerbaijan, Bahrain, Egypt (eastern part as shown), Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Oman, Pakistan, Qatar, Saudi Arabia, Syria, Turkey, United Arab Emirates and Yemen.

APPENDIX B: North American Region (companion voice)

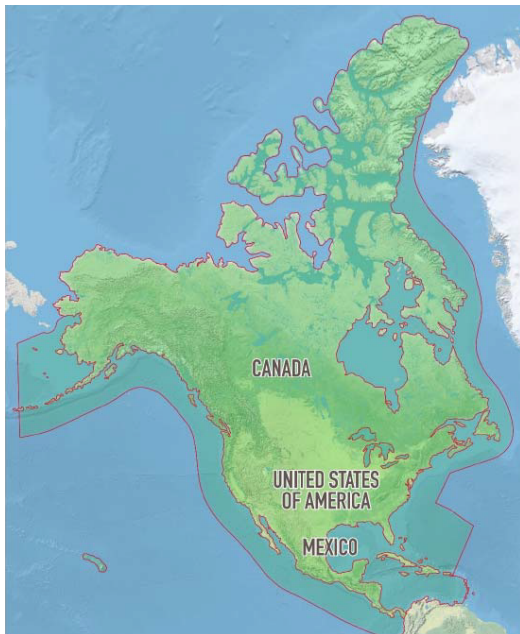

Figure B: North America Region

The North America Region includes Canada, Mexico and the United States, including all 50 states and the U.S. Territories of Puerto Rico and the U.S. Virgin Islands and certain surrounding waters as shown in this figure. Operation of the Iridium PTT equipment in Cuba is currently restricted.
