May 30, 2013

Dear Valued Customer:

Effective July 1, 2013, all Iridium North American Plans, that is any of several postpaid plans with optimized rates for use in the North American region, are being transitioned to the Standard+0 Plan.* The Standard+0 Plan has a **\$49.95 per month** service fee, but unlike the Iridium North American Plans, it does not include any bundled usage. On the Standard+0 Plan, all voice and data calls to public switched telephone numbers are **\$1.29 per minute** regardless of the location from which the call is made; other rates and details of the plan are available online at <http://www.outfittersatellite.com/notifications.htm>.

If you accept the above changes, no further action is required on your part and the changes will happen automatically. Otherwise, if these changes are not acceptable to you, please contact Outfitter Satellite prior to June 30, 2013 and either change your service plan to any other plan that is currently available for activation or cancel your service plan. To cancel your service, send a written intent to cancel to info@OutfitterSatellite.com. Please call our customer service department if you need assistance.

Sincerely,

Customer Service
Outfitter Satellite, Inc.

**As per the terms of your Service Agreement, Outfitter Satellite reserves the right to change the monthly service fees and other prices and rates and likewise change, delete, or add any other term of our Agreement with our customers upon 30-day notice. This letter serves as that notice. It will be posted on the web at www.OutfitterSatellite.com/notifications.htm as of May 30, 2013.*
