CUSTOMER PAYS TAXES, USF FEES AND OTHER FEES IN ADDITION TO RATES SHOWN.

By purchasing a prepaid SIM card or voucher, the Purchaser understands that he or she is entering into a prepaid service agreement with Outfitter Satellite, Inc., and the Purchaser acknowledges having read the Terms and Conditions included in all pages of this agreement including those incorporated by reference and located at <http://www.OutfitterSatellite.com/adobe/TermsConditions.pdf> and agrees to be bound thereby. If the Purchaser is acting in a representative capacity, the Purchaser agrees that the entity he or she is representing will be bound thereby and further represents and warrants that he or she is a duly authorized representative that has full authority to bind said entity.

DEFINITIONS: Basic Rate Minutes are defined as any service that uses 24 units per minute. Calls "terminating inside North America" are defined as calls terminating in Canada or the USA but not including any Caribbean islands. PSTN means Public Switched Telephone Number.

REGIONAL PREPAID SERVICES: Call origination is restricted to the HOME ZONE specified for the voucher type and up to 12 nautical miles off shore of its coastline. There are a small percentage of instances where this geographic restriction will extend or retract from the HOME ZONE as defined above so that calls may be interpreted by the Iridium system as originating outside the designated HOME ZONE and will be restricted from making calls. Service availability is not guaranteed in these instances. Call details are not available. Airtime is billed in 20 second increments. Undeliverable SMS messages from errors unrelated to the Iridium network such as problems with mail filters or mailbox overflows remain billable and there will be no refund.

VALIDITY EXPIRATION DATE: The validity expiration date of the prepaid account is equal to the validity associated with the last voucher applied to the prepaid account as measured from the date it is applied. If a voucher is added to a prepaid account prior to its validity expiration date, all unused units that have not yet exceeded their carry-over period roll forward into the new validity period. After the validity expiration date, all unused units on the prepaid account are lost. The existing prepaid account balance will be lost if a different type of prepaid voucher is loaded onto the account. **CARRY-OVER PERIOD:** Units of prepaid usage from individual vouchers applied to a prepaid account are consumed on a first-in-first-out basis. The carry-over period for any voucher is 3 years from the date that the voucher was applied to the prepaid account.

270-DAY GRACE PERIOD: The SIM card will be deactivated permanently if a reload voucher is not applied within 270 days (the grace period) of the validity expiration date or the date a zero balance first occurred, which ever comes first.

NO REFUNDS: Customer agrees that the purchase of prepaid vouchers is a non-refundable up-front purchase, and after a prepaid voucher is applied to the Customer's account or otherwise electronically delivered to the Customer, that there is no refund for unused prepaid service or unused validity time.

FUTURE RELOADS: Reload vouchers can be purchased on Outfitter Satellite's online store. The Customer authorizes the use of his/her credit card account(s) for future online, email, and over-the-phone transactions to purchase prepaid vouchers to be applied to the Customer's prepaid account(s). Outfitter Satellite has no liability for prepaid units that are allowed to expire if the Customer's reload request is made less than 48 business hours before the validity expiration date. If prepaid units are allowed to expire due to a clerical error on Outfitter Satellite's part, Outfitter Satellite has a maximum liability of \$100 per SIM.
